Titoli corsa semplice QR digitali emessi dalle rivendite su supporto cartaceo

Sommario

1. Tickets 2
   1.1 Single ticket 2
   1.2 QR code to be imported into the ASF4U app 2
2. Ticket validation 3
   2.1 Auto validation 3
   2.2 On-board validation (VPE) 3

1. Tickets

1.1 Single ticket

These are actual tickets which can be activated at the VPE machine

They can be recognized by:

- **A text above the QR code showing the description of the ticket and the relevant bus line;**
- **The caption "To be validated on board" below the QR code (for more information on validation, see the ticket validation section)**
- **The receipt has an anti-counterfeiting holographic strip on the right side.**

1.2 QR code to be imported into the ASF4U app

These are not valid tickets, but QR codes that must be imported into the ASF4U app (for more info link).

They can be recognized by:

- **QR TO BE IMPORTED INTO ASF4U APP**
- **NOT VALID FOR TRAVEL**
- **The receipt has an anti-counterfeiting holographic strip on the right side.**

NB: The QR code can only be imported once!

The same QR code can be imported directly from the ticket issuing device available at authorized ASF resellers

2. Ticket validation

2.1 Auto validation

You can validate the imported tickets by clicking the "Activate" button in the ASF4U app or the button in the web version.

2.2 On-board validation (VPE)

For both physical tickets and those imported into the app, it is possible to activate the title by scanning the green VPE validator.
